

# PEST MANAGEMENT IN TODAY'S SCHOOLS

March 22nd, 2017

Instructional Services Center

14 Area Development Drive Plattsburgh, NY

9:00 am - 3:15 pm *Lunch will be provided*

Cost: \$30 per person - CoSer 608

## Presenter

Cornell University  
New York State  
Integrated Pest Management Program

**Lynn Braband & Joellen Lampman** from the NYS IPM Program. **Brayton Pendell** from the NYS Department of Environmental Conservation.

In this workshop you will learn the concepts and tools for successful integrated pest management programs on school properties. Learn how to make your pest management program more efficient and effective, and how to comply with school-related laws and policies

## Our Agenda includes:

1. Tenets of School IPM
2. Regulatory Update from the NYSDEC
3. Turf and Grounds IPM
4. Structural Pest Management
5. Walk-Through Exercise

Participants experience a casual on-site inspection and discuss the aspects of situations encountered.

NYS Pesticide Applicator recertification credits are anticipated for the following categories: Core, 3a, 3b, 7a, 7f, 8, and 10. Course participants will sign in during registration with signed applicator credit certificates being distributed at the end of the course only to those that were present for all sessions.

**RSVP by March 17, 2017**
