## **Autism 6:1:1**

### **Co-Ser 205**

These 6:1:1 classes are for students with an Autism spectrum disorder and similar needs. The classrooms use a research-based focus on academic and social skill development with the support of a Board Certified Behavior Consultant. The program uses methodologies to include Applied Behavior Analysis (ABA), Visual Strategies, Picture Exchange Communication Systems (PECS), augmentative communication systems, functional analysis of behavior, and Positive Behavior Supports to assist students attending programs in the least restrictive environment. Academic instruction is addressed based on the student's current level of functioning using Autism Curriculum Encyclopedia (ACE) as well as the New York State Common Core.

## **8:1:1 Academic/Behavioral Program**

### **Co-Ser: 208**

These 8:1:1 classes are for students with mild to severe emotional disabilities.

They may have borderline to above average cognitive ability, a mental health diagnosis, and display challenging behaviors that interfere with learning. These students require a smaller class setting, intensive adult support and consistent routines for learning.

The instructional program focuses on meeting these emotional/behavioral needs while addressing academic skills. Students in this program work toward a Regent's Diploma and CDOS Credential with curricular modifications and support as needed. Students also receive instruction and support with social and behavioral skills. Students age 14 and over participate in career exploration and work experience opportunities.

Counseling is an integral part of this program and is included in the tuition at two half-hour sessions per week. Frequent collaboration and communication with parents and community service providers are an essential component of this program.

Additional services are available on an a-la-carte basis.

## 6:1:1 Intensive Therapeutic Support Program

### Co-Ser: 220

The Champlain Valley Educational Services Intensive Therapeutic Support Program services students who have been identified as needing special education instruction and mental health clinical services. The program provides a broad range of services designed to strengthen individual and family functioning and prevent children and adolescents from requiring a more restrictive residential environment.

The clinical staff is composed of a licensed clinical social worker, counselor, or registered nurse, and a consulting psychiatrist. Services provided include: psychosocial assessments; individual, group and family therapy; and case management.

Social skills development, career and life skills training, adventure-based counseling, behavior management and crisis intervention are integral parts of the program.

## 12:1:1 Careers Program

### Co-Ser: 201

A half-day program designed for students who receive their academics at district. The goal of this program is to allow students to participate fully in community work experiences while exploring career options. Students are given the opportunity to expand their work experiences with increasing independence as appropriate. In addition they can take elective courses to supplement their transition skills.

## 8:1:1 Life Skills Program

### Co-Ser: 210

These 8:1:1 classes are for students identified by their district Committee on Special Education as needing a highly specialized educational program. They may have multiple delays across domains impacting daily functioning, a significant cognitive disability, and/ or significant deficits in communication/ language and adaptive behavior.

These students require instruction that facilitates the acquisition, application, and transfer of skills across natural environments. They may also require educational support systems such as assistive technology, personal care services, or behavioral intervention. They benefit from alternate content and process of instruction. They may have a need for medical supports and assistance/instruction in activities of daily living.

Students in this program work toward a Skills and Achievement Credential. Curriculum focuses on independent living skills, social skills, functional academics, pre-vocational/vocational skills, and Career Exploration/Work Experience.

This program includes the support of a counselor to assist with preventative strategies and crisis support. Frequent collaboration and communication with parents and community service providers are an essential component of this program.

Additional services are available on an a la carte basis.
